

## **Summer of STEM in Missouri**

### **Boys and Girls Club of the Ozarks and Discovery Center: STEM Presentation**

*The Discovery Center (based in Springfield, MO) will be visiting the Boys and Girls Club of the Ozarks at the Branson and Reeds Spring Campus this summer. Students will be able to watch an interactive science presentation provided by the Discovery Center and be able to experience Virtual Reality devices too.*

- Branson, MO – 7/15
- Reeds Spring, MO – 7/18

### **Heartland Foundation: Coding, Robotics, VR, and Lego**

*The Heartland Foundation's STEAM programs are designed to create and develop an interest in STEM. All sessions feature hands-on activities led by trained facilitators. Kids will build machines, vehicles, tools, contraptions and robots, and learn how to use code to program their robots to perform a variety of maneuvers. If your child loves video games, they will love Tynker Camps where they will create and code their own video game.*

- St. Joseph, MO – 7/8-7/26
